EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Matthew Scheele (Registration No.59,847) on December 19, 2008.

The application has been amended as follows:

Claims 33-39 and 46-53 have been cancelled.

In claim 66, line 1, "composition of claim 63" has been changed to --composition of claim 62--.

In claim 66, line 2, "radiopaque contrast particles contrast particles" has been changed to --radiopaque contrast particles-- (that is, the second recitation of "contrast particles" has been deleted).

In claim 70, line 1, "composition of claim 40" has been changed to --composition of claim 62--.

The following is an examiner's statement of reasons for allowance:

Applicant's amendment to claim 74 overcame the rejections over Ersek (US 5,258,028). The Lin (US 5,512,610) rejections have all been overcome upon further review of the patent and

amendments, since although Lin discloses two distinct particle size ranges (smaller and larger particles), the opacifier is *only* disclosed to be used in the larger particles. Thus Lin does not disclose radiopaque contrast particles from 120um-350um. The Dowd et al. (US 5,507,813) rejections have been overcome upon further review of the patent and amendments, since Dowd's particles seem to be all in the larger range (2-200mm equating to 2000-200000um) thus Dowd does not disclose radiopaque contrast particles from 120um-350um. The previous rejections have been overcome and no references were found by the examiner to read on the allowed claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to CHERYL MILLER whose telephone number is (571)272-4755. The examiner can normally be reached on Monday-Friday 7:30am-5:00pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Corrine McDermott can be reached on (571) 272-4755. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only.
